Attorneys for Plaintiff  
Federal Trade Commission

IN THE UNITED STATES DISTRICT COURT  
FOR THE DISTRICT OF ARIZONA

Federal Trade Commission,  
  
Plaintiff,  
  
v.  
  
TriVita, Inc., an Arizona corporation;  
Ellison Media Company, an Arizona  
corporation; Michael R. Ellison,  
individually and as an officer of TriVita,  
Inc.; and Susan R. Ellison, individually and  
as an officer of TriVita, Inc.;  
  
Defendants.

Case No.  
  
COMPLAINT FOR PERMANENT  
INJUNCTION AND OTHER  
EQUITABLE RELIEF

Plaintiff, the Federal Trade Commission (“FTC”), for its Complaint alleges:  
1. The FTC brings this action under Section 13(b) of the Federal Trade Commission Act (“FTC Act”), 15 U.S.C. § 53(b), to obtain permanent injunctive relief, rescission or reformation of contracts, restitution, the refund of monies paid, disgorgement of ill-gotten monies, and other equitable relief for Defendants’ acts or practices in violation of Sections 5(a) and 12 of the FTC Act, 15 U.S.C. §§ 45(a) and 52, in connection with the advertising, marketing, and sale of Nopalea, which purports to relieve pain, improve

1 breathing, and treat a variety of health conditions.

2 **JURISDICTION AND VENUE**

3 2. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331, 1337(a),  
4 and 1345, and 15 U.S.C. §§ 45(a) and 53(b).

5 3. Venue is proper in this district under 28 U.S.C. § 1391(b) and (c), and 15 U.S.C. §  
6 53(b).

7 **PLAINTIFF**

8 4. The FTC is an independent agency of the United States Government created by  
9 statute. 15 U.S.C. §§ 41-58. The FTC enforces Section 5(a) of the FTC Act, 15 U.S.C.  
10 § 45(a), which prohibits unfair or deceptive acts or practices in or affecting commerce.  
11 The FTC also enforces Section 12 of the FTC Act, 15 U.S.C. § 52, which prohibits false  
12 advertisements for food, drugs, devices, services, or cosmetics in or affecting commerce.

13 5. The FTC is authorized to initiate federal district court proceedings, by its own  
14 attorneys, to enjoin violations of the FTC Act and to secure such equitable relief as may  
15 be appropriate in each case, including rescission or reformation of contracts, restitution,  
16 the refund of monies paid, and the disgorgement of ill-gotten monies. 15 U.S.C. § 53(b).

17 **DEFENDANTS**

18 6. Defendant TriVita, Inc. (“TriVita”) is an Arizona corporation with its principal  
19 place of business at 16100 North Greenway Hayden Loop, #950, Scottsdale, AZ 85260.  
20 TriVita transacts or has transacted business in this district and throughout the United  
21 States. At all times material to this Complaint, acting alone or in concert with others,  
22 TriVita has advertised, marketed, distributed, or sold Nopalea to consumers throughout  
23 the United States.

24 7. Defendant Ellison Media Company (“Ellison Media”) is an Arizona corporation  
25 with its principal place of business at 14804 North Cave Creek Road, Phoenix, AZ  
26 85032. Ellison Media transacts or has transacted business in this district and throughout  
27 the United States. At all times material to this Complaint, acting alone or in concert with  
28 others, Ellison Media has created, prepared, developed, disseminated, or caused to be

1 disseminated advertisements for the product at issue in this Complaint.

2 8. Defendant Michael R. Ellison (“Michael Ellison”) is founder, owner, and the  
3 President and Chairman of the Board of TriVita. Michael Ellison is also founder,  
4 President, Chief Executive Officer, and a director of Ellison Media. At all times material  
5 to this Complaint, acting alone or in concert with others, Michael Ellison has formulated,  
6 directed, controlled, had the authority to control, or participated in the acts and practices  
7 set forth in this Complaint. Michael Ellison resides in this district and, in connection  
8 with the matters alleged herein, transacts or has transacted business in this district and  
9 throughout the United States. Michael Ellison personally appears in the infomercial at  
10 issue in this Complaint, asserting his first-hand knowledge of Nopalea’s benefits.

11 9. Defendant Susan R. Ellison (“Susan Ellison”) is co-founder, owner, and an officer  
12 of TriVita. Susan Ellison is also Secretary, Vice-President of Public Relations, and a  
13 director of Ellison Media. At all times material to this Complaint, acting alone or in  
14 concert with others, Susan Ellison has formulated, directed, controlled, had the authority  
15 to control, or participated in the acts and practices set forth in this Complaint. Susan  
16 Ellison resides in this district and, in connection with the matters alleged herein, transacts  
17 or has transacted business in this district and throughout the United States. Susan Ellison  
18 personally appears in the infomercial at issue in this Complaint, asserting her first-hand  
19 knowledge of Nopalea’s benefits.

#### 20 COMMERCE

21 10. At all times material to this Complaint, Defendants have maintained a substantial  
22 course of trade in or affecting commerce, as “commerce” is defined in Section 4 of the  
23 FTC Act, 15 U.S.C. § 44.

#### 24 DEFENDANTS’ BUSINESS ACTIVITIES

25 11. Since at least 2009, Defendants have advertised, marketed, labeled, manufactured,  
26 distributed, offered for sale, or sold the product “Nopalea.”

27 12. Defendants have promoted Nopalea as an “anti-inflammatory wellness drink.”  
28 Defendants claim that Nopalea reduces or eliminates the effects of inflammation on the

1 body, relieves pain, relieves swelling, improves respiration, and provides skin health  
2 benefits.

3 13. According to Defendant TriVita, Nopalea contains Nopal cactus, or prickly pear  
4 extract, agave nectar, pineapple syrup, and a proprietary blend of ingredients known as  
5 “purple haze,” which includes grape seed, beet juice powder, and orange juice  
6 concentrate. The cost to consumers for one 32-ounce bottle of Nopalea is \$39.99, plus  
7 shipping and handling.

8 14. To induce consumers to purchase Nopalea, Defendants have created, prepared,  
9 disseminated, or caused to be disseminated, infomercials, advertisements, websites, and  
10 other marketing materials, in English and Spanish, including, but not limited to, the  
11 attached Exhibits A-I.

12 15. Since at least December 2009, Defendants have advertised through several  
13 versions of an infomercial (the “Nopalea infomercial”) that aired on national cable  
14 networks such as ABC Family, the Discovery Channel, and Lifetime, and on local  
15 stations throughout the United States. The Nopalea infomercial presents product  
16 testimonials, images with voiceover, and depictions purporting to explain the “science”  
17 of Nopalea, including the images of areas and conditions that Nopalea is purported to  
18 treat. Michael and Susan Ellison (collectively, “Individual Defendants”) appear in the  
19 infomercial and endorse the product. The Nopalea infomercial has at times been one of  
20 the top ten most frequently broadcasted infomercials in the United States.

21 16. Since at least October 2010, Defendants have also advertised Nopalea through  
22 print advertisements appearing in nationally-distributed newspapers and other  
23 publications, such as USA Today.

24 17. Since at least 2011, Defendants have also advertised and sold Nopalea directly to  
25 consumers on the Internet through websites owned and controlled by TriVita, including,  
26 but not limited to: [www.nopalea.com](http://www.nopalea.com), [www.fightthepainnow.com](http://www.fightthepainnow.com) and  
27 [www.reduceyourinflammation.com](http://www.reduceyourinflammation.com).

28 18. In the Nopalea infomercial, print advertisements, and websites, Defendants

1 display a toll-free telephone number for consumers to purchase Nopalea directly from  
2 TriVita. When consumers call the toll-free number, TriVita sales representatives  
3 represent that Nopalea relieves pain and provides other health benefits. In numerous  
4 instances, TriVita sales representatives claim to consumers that drinking Nopalea will  
5 make consumers “pain-free.”

6 19. The infomercial, print advertisements, and websites discussed above contain,  
7 among other things, the following or similar statements and depictions:

8 a. FEMALE: I had pain and inflammation in my elbow, my wrist, and  
9 my arm. And within three weeks of taking Nopalea, I noticed that  
10 the pain had disappeared.

- b. MICHAEL R. ELLISON: Sitting around a campfire one evening with seven natives, they begin to share with me about the people who have lived in the desert for hundreds of years. They had no modern conveniences like air conditioning, refrigeration or running water. And they lived without modern medicine and drugs. Yet, they not only survived, they thrived without obesity and diabetes and other inflammatory diseases that so many people suffer from today.

When we discovered the healing properties and the science behind the Nopal cactus, I knew we had to make it TriVita's top priority and bring this product to market. We had to get this superfruit, used by the desert natives for hundreds of years, to the many people who are suffering today from symptoms caused by inflammation.

SUSAN ELLISON: I was diagnosed with inflammatory arthritis in my feet and I couldn't walk without excruciating pain.... I started on Nopalea during the product's trial period without much hope, but after just six weeks on Nopalea, I was almost pain-free, and after eight weeks, the redness and swelling was completely gone.

Scientists believe that inflammation -- the lifesaver that helps you fight off germs, bacteria and viruses -- is the secret killer. Left alone, it can ravage your arteries, chew up nerve cells in your brain, and lead to all kinds of age-related ailments.

Now, researchers at the University of Arizona have confirmed that the healing properties of the Nopal cactus -- found only in the Sonoran Desert in the southwest - can help fight off harmful inflammation and restore cellular health.

The key is a rare and potent class of antioxidants called

**VIOLATIONS OF THE FTC ACT**

20. Section 5(a) of the FTC Act, 15 U.S.C. § 45(a), prohibits “unfair or deceptive acts or practices in or affecting commerce.”

21. Misrepresentations or deceptive omissions of material fact constitute deceptive acts or practices prohibited by Section 5(a) of the FTC Act.

22. Section 12 of the FTC Act, 15 U.S.C. § 52, prohibits the dissemination of any false advertisement in or affecting commerce for the purpose of inducing, or which is likely to induce, the purchase of food, drugs, devices, services, or cosmetics. For the purposes of Section 12 of the FTC Act, 15 U.S.C. § 52, Nopalea is either a “food” or “drug” as defined in Section 15(b) and (c) of the FTC Act, 15 U.S.C. § 55(b), (c).

**COUNT I**

**Unsubstantiated Health Claims**

23. Through the means described in Paragraphs 11-19, Defendants have represented, directly or indirectly, expressly or by implication, that:

- a. Drinking Nopalea significantly reduces or eliminates the effects of inflammation on the body;
- b. Drinking Nopalea provides significant relief from pain, including, but not limited to, chronic pain, joint pain, back pain, nerve pain, phantom pain, and pain from inflammation, arthritis, fibromyalgia, surgical procedures, and other conditions;
- c. Drinking Nopalea significantly reduces or relieves swelling of joints and muscles;
- d. Drinking Nopalea significantly improves breathing and/or provides significant relief from respiratory conditions, including, but not limited to, sinus infections; and
- e. Drinking Nopalea provides significant relief from skin conditions, including, but not limited to, psoriasis.

24. The representations set forth in Paragraph 23 were not substantiated at the time

1 the representations were made.

2 25. Therefore, the making of the representations as set forth in Paragraph 23 of the  
3 Complaint constitutes a deceptive act or practice and the making of false advertisements,  
4 in or affecting commerce, in violation of Sections 5(a) and 12 of the FTC Act, 15 U.S.C.  
5 §§ 45(a) and 52.

6 **COUNT II**

7 **False Establishment Claims**

8 26. Through the means described in Paragraphs 11-19, Defendants have represented,  
9 directly or indirectly, expressly or by implication, that:

- 10 a. Scientific studies prove that drinking Nopalea significantly reduces or  
11 eliminates the effects of inflammation on the body;
- 12 b. Scientific studies prove that drinking Nopalea provides significant relief  
13 from pain, including, but not limited to, chronic pain, joint pain, back pain,  
14 nerve pain, phantom pain, and pain from inflammation, arthritis,  
15 fibromyalgia, surgical procedures, and other conditions; and
- 16 c. Scientific studies prove that drinking Nopalea significantly reduces or  
17 relieves swelling of joints and muscles.

18 27. In fact:

- 19 a. Scientific studies do not prove that drinking Nopalea significantly reduces  
20 or eliminates the effects of inflammation on the body;
- 21 b. Scientific studies do not prove that drinking Nopalea provides significant  
22 relief from pain, including, but not limited to, chronic pain, joint pain, back  
23 pain, nerve pain, phantom pain, and pain from inflammation, arthritis,  
24 fibromyalgia, surgical procedures, and other conditions; and
- 25 c. Scientific studies do not prove that drinking Nopalea significantly reduces  
26 or relieves swelling of joints and muscles;

27 28. Therefore, the making of the representations as set forth in Paragraph 26  
28 constitutes a deceptive act or practice and the making of false advertisements, in or

1 affecting commerce, in violation of Sections 5(a) and 12 of the FTC Act, 15 U.S.C. §§  
2 45(a) and 52.

3 **COUNT III**

4 **Deceptive Representations Regarding Endorsers**

5 29. Through the means described in Paragraph 11-19, Defendants have presented  
6 testimonials for Nopalea by consumer endorsers who purportedly derived health benefits  
7 in the ordinary course of using the product. Defendants have failed to adequately  
8 disclose that the endorsers are “Independent TriVita Business Owners” who receive  
9 commission on the sale of Defendants’ products. Therefore, the failure to disclose this  
10 fact, in light of the representation made, constitutes a deceptive practice, and the making  
11 of false advertisements, in or affecting commerce, in violation of Sections 5(a) and 12 of  
12 the FTC Act, 15 U.S.C. §§ 45(a) and 52.

13 **CONSUMER INJURY**

14 30. Consumers have suffered and will continue to suffer substantial injury as a result  
15 of Defendants’ violations of the FTC Act. In addition, Defendants have been unjustly  
16 enriched as a result of their unlawful acts or practices. Absent injunctive relief by this  
17 Court, Defendants are likely to continue to injure consumers, reap unjust enrichment, and  
18 harm the public interest.

19 **THE COURT’S POWER TO GRANT RELIEF**

20 31. Section 13(b) of the FTC Act, 15 U.S.C. § 53(b), empowers this Court to grant  
21 injunctive and such other relief as the Court may deem appropriate to halt and redress  
22 violations of any provision of law enforced by the FTC. The Court, in the exercise of its  
23 equitable jurisdiction, may award ancillary relief, including rescission or reformation of  
24 contracts, restitution, the refund of monies paid, and the disgorgement of ill-gotten  
25 monies, to prevent and remedy any violation of any provision of law enforced by the  
26 FTC.

27 **PRAYER FOR RELIEF**

28 32. Wherefore, Plaintiff FTC, pursuant to Section 13(b) of the FTC Act, 15 U.S.C. §

ON SCREEN: TriVita Member Individual results will vary.

UNIDENTIFIED FEMALE: I had pain and inflammation in my elbow, my wrist and my arm. And within three weeks of taking Nopalea, I noticed that the pain had disappeared.

ON SCREEN: TriVita Member

1 Individual results will vary.

2 UNIDENTIFIED MALE: I love the product, I love  
3 how it tastes, how it makes me feel.

4 ON SCREEN: TriVita Member

5 UNIDENTIFIED FEMALE: There's just no way you  
6 can taste Nopalea and not love it.

7 ON SCREEN: TriVita Member

8 UNIDENTIFIED MALE: Since I've been taking  
9 Nopalea, I do not have any inflammation. My pain has  
10 ceased.

11 ON SCREEN: TriVita Member

12 UNIDENTIFIED FEMALE: Once I started taking  
13 this for four or five days, it was great. I'm back doing  
14 my yoga, back walking the dog every day and taking the  
15 Pilates.

16 MALE ANNOUNCER: The people you just saw all  
17 suffered from some sort of pain and discomfort caused by  
18 chronic inflammation in the body. Could a natural  
19 wellness drink really help people with painful symptoms  
20 like --

21 ON SCREEN neck pain

22 back pain

23 swollen joints

24 muscle aches

25 sinus infections

1 skin disorders  
2 respiratory problems  
3 and more...

4 MALE ANNOUNCER: -- chronic neck and back pain,  
5 swollen joints and muscle aches, or how about even sinus  
6 infections, skin disorders, respiratory problems and  
7 more?

8 Well, stay tuned to discover a new and natural  
9 anti-inflammatory wellness drink that's changing people's  
10 lives.

11 ON SCREEN: Kimberly J.  
12 Mesa, AZ

13 KIMBERLY J.: The tumor was in the pelvis, hip  
14 and spine. After the surgery, I had a lot of nerve pain  
15 and phantom pain. But then I discovered Nopalea.

16 ON SCREEN: Individual results will vary.

17 KIMBERLY J.: A man from church gave me a  
18 bottle and I began taking it in the morning and at night,  
19 and within four weeks, I've noticed a dramatic change in  
20 my pain. The pain in my hip that would go down my leg is  
21 gone. The pain in my spine is gone. And my phantom pain  
22 has been significantly reduced.

23 MALE ANNOUNCER: The real stories you are  
24 hearing all have one thing in common --

25 ON SCREEN: relief from chronic inflammation

1 in the body

2 MALE ANNOUNCER: -- relief from chronic  
3 inflammation in the body.

4 Today, medical experts and scientists are  
5 searching for solutions to help combat chronic  
6 inflammation of the body like never before.

7 ON SCREEN: Time Magazine

8 Visit [time.com](http://time.com) and put "The Secret Killer" in  
9 their search box on the home page to find and read the  
10 archived article from 2004. See what they were saying 5  
11 years ago about the surprising links between  
12 inflammation and diseases. Plus, what you can do to  
13 help fight it!

14 MALE ANNOUNCER: In fact, a recent major  
15 publication covered the dangers of high levels of  
16 inflammation in the body and how it's now being linked to  
17 so many different illnesses and diseases.

18 However, now there is a natural alternative  
19 that can help the body reduce chronic inflammation  
20 without the worries of negative side effects.

21 ON SCREEN: nopalea

22 MALE ANNOUNCER: Nopalea, made directly from  
23 the natural rich fruit of the Sonoran Desert's Nopal  
24 cactus. This amazing cactus survives the extreme hot and  
25 dry conditions of the Sonoran Desert, and its vital

1 nutrients can help you, too.

2 ON SCREEN: Brazos Minshew

3 Chief Science Officer, TriVita

4 BRAZOS MINSHEW: The Nopal cactus grown in the  
5 Sonoran Desert, the harshest environment on the planet,  
6 has to develop an extraordinary reserve of betalains in  
7 order to survive.

8 ON SCREEN: These statements have not been  
9 verified by the FDA.

10 BRAZOS MINSHEW: When people and animals eat  
11 the fruit, they get these betalains that drive down the  
12 inflammation in their bodies.

13 We need nutrient protection every day to help  
14 our body wash away toxins and build our defenses.

15 ON SCREEN: Betalains

16 Unhealthy cells

17 BRAZOS MINSHEW: Betalains in Nopalea are  
18 rushed to the cells where they help target unhealthy  
19 cells. Betalains support your body as you heal. They  
20 quench runaway inflammation and help the cells return to  
21 vibrant health.

22 ON SCREEN: Healthy cells

23 Macrophage

24 MALE ANNOUNCER: Unless a cell is too toxic to  
25 be saved, then macrophages scavenge the toxic cell and

1 takes it away. This leaves our cells and our body full  
2 of energy.

3 MALE ANNOUNCER: Finally, a product that can  
4 help your body reduce painful symptoms caused by  
5 inflammation, and it comes in the form of a great-tasting  
6 wellness drink.

7 ON SCREEN: TriVita Member

8 UNIDENTIFIED FEMALE: Nopalea is delicious. We  
9 all absolutely love the taste of Nopalea.

10 ON SCREEN: TriVita Member

11 UNIDENTIFIED FEMALE: It's very sweet and  
12 fruity. My children love the taste as well.

13 ON SCREEN: TriVita Member

14 UNIDENTIFIED MALE: It's Nopalicious.

15 ON SCREEN: TriVita Member

16 UNIDENTIFIED FEMALE: I love the taste of  
17 Nopalea. The first time I tried it, I was surprised. It  
18 is exceptional.

19 ON SCREEN: Michael R. Ellison

20 Founder, TriVita

21 MICHAEL R. ELLISON: Susan and I have lived  
22 here in the Sonoran desert for nearly 30 years. We've  
23 enjoyed the desert lifestyle and the amenities it offers,  
24 but we have never thought of it as an oasis of wellness.

25 ON SCREEN: Michael and Susan Ellison founded

1 TriVita in 1999.

2 MICHAEL R. ELLISON: Then I made a trip into  
3 the Sonoran Desert in Mexico where I made an amazing  
4 discovery.

5 Sitting around a campfire one evening with  
6 seven natives, they begin to share with me about the  
7 people who have lived in the desert for hundreds of  
8 years. They had no modern conveniences like air  
9 conditioning, refrigeration or running water. And they  
10 lived without modern medicine and drugs. Yet, they not  
11 only survived, they thrived without obesity and diabetes  
12 and other inflammatory diseases that so many people  
13 suffer from today. They told me the secret to their  
14 wellness was the healing plants of the Sonoran Desert.

15 ON SCREEN: Dave Morris  
16 Ethnobotanist

17 DAVE MORRIS: For centuries, the Native  
18 American people have been using the plants of the Sonoran  
19 Desert for food, medicine, spiritual needs. Prickly pear  
20 cactus or the Nopal is a good example of that. The  
21 flowers are edible, the fruit a great protein source,  
22 vitamin C source, and has those nice betalains in there  
23 that help chase down those free radicals in the body,  
24 help to stop inflammation in the body.

25 The aridity of this area, a harsh desert

1 environment, is actually what made the plants adapt and  
2 gives them a lot of their wonderful healing properties  
3 here in the Sonoran Desert.

4 MICHAEL R. ELLISON: When we discovered the  
5 healing properties and the science behind the Nopal  
6 cactus, I knew we had to make it TriVita's top priority  
7 and bring this product to market. We had to get this  
8 superfruit, used by the desert natives for hundreds of  
9 years, to the many people who are suffering today from  
10 symptoms caused by inflammation.

11 ON SCREEN: Susan Ellison  
12 Co-founder, TriVita

13 SUSAN ELLISON: I was diagnosed with  
14 inflammatory arthritis in my feet and I couldn't walk  
15 without excruciating pain. Being physically fit has  
16 always been very important to me, but I had to give up my  
17 treadmill workouts. I was facing surgery and I needed to  
18 use a crutch more and more often. I even had to switch  
19 to comfort shoes.

20 I started on Nopalea during the product's trial  
21 period without much hope, but after just six weeks on  
22 Nopalea, I was almost pain-free, and after eight weeks,  
23 the redness and swelling was completely gone. Today, I  
24 am back in the gym on my treadmill pain-free and power  
25 shopping wearing stylish shoes and loving it.

1 I know that pain can rob you of quality of  
2 life. If you have inflammatory pain issues, I would  
3 encourage you to give Nopalea a chance.

MALE ANNOUNCER: You've heard from people who  
have experienced incredible results from Nopalea. Don't  
suffer another day, take the Nopalea wellness challenge  
right now by calling the number on your screen.

Nopalea is helping people improve their quality  
of life by helping the body reduce chronic inflammation.  
Here's another amazing story of how Nopalea helped a  
woman overcome daily intense pain from a disabling car  
accident and back to enjoying her passion for horse  
riding.

ON SCREEN: Melody C.

Denver, NC

MELODY C.: In 2002, I had three vertebrae to  
collapse in my neck and had to have surgery for that.  
And I was down for a year and a half. And the things I  
really miss about that is being able to go to the barn

1 and saddle up and really groom the horses and do things  
2 with Caleb and actually ride and go on the long trail  
3 rides.

4 Then I found Nopalea. A good friend of mine  
5 I've known for 17 years introduced me to the product. I  
6 was very skeptical at first because I tried a lot of  
7 products. Within three weeks, I could notice a  
8 difference. I was moving better. Within five weeks, I  
9 was pain-free on the product.

10 ON SCREEN: Individual results will vary.

11 MELODY C.: Thanks to Nopalea, I have a better  
12 quality of life. I don't have inflammation in my body.  
13 I'm mountain biking, I'm exercising. I'm feeling better.  
14 My sugar levels are better, my diabetes is better.

15 ON SCREEN: This product is not intended to  
16 treat, diagnose, cure or prevent any disease.

17 MELODY C.: I just have a better quality of  
18 life all around.

19 Actually, my husband gets kind of aggravated  
20 that I don't get all the things done around the house  
21 because me and my son are out riding and stuff, because I  
22 feel so much better that it's like, well, that will be  
23 there tomorrow, I'd rather go out riding with my son and  
24 doing things with my son instead of being around the  
25 house and doing the housework.

3 MELODY C.: I just feel so much better on

4 Nopalea, that can wait. Let's go ride horses.

5 ON SCREEN: Robin S. RN

6 Denver, NC

7 ROBIN S.: As a registered nurse, Melody came

8 to me and asked me my opinion about the Nopalea. I did

9 research, went to an event on it, was very impressed.

10 Since that time, I have been taking the Nopalea. Its

11 anti-inflammatory agents are fabulous.

13 ON SCREEN: John W.

14 Spokane, WA

15 JOHN W.: I have experienced chronic pain,

16 chronic inflammation due to a condition called ankylosing

17 spondylitis. And as a spin-off of this, I've developed

18 fibromyalgia, as well as facet arthritis. And I spent

19 the better part of 20 years off and on prescription

20 medications.

21 For me, Nopalea has been a life-changing

22 product that I just can't say enough positive things

23 about it.

24 ON SCREEN: Individual results will vary.

25 JOHN W.: I've gained back my mobility, I've

1 gained back my flexibility, and more important than that,  
2 I've gained back my outlook on life. And I would  
3 encourage any person to simply give Nopalea a try. It's  
4 the best thing I think that you could do for yourself.  
5 It's helped me. It's helped people I've shared it with.  
6 And you just can't go wrong giving such a wonderful  
7 product a shot.

8 MALE ANNOUNCER: Nopalea is made directly from  
9 the natural rich superfruit of the Sonoran Desert's Nopal  
10 cactus. This cactus survives one of the world's harshest  
11 desert regions, and its key nutrients can help you, too.  
12 Nopalea is dramatically helping people find relief from  
13 painful symptoms caused by chronic inflammation of the  
14 body.

15 ON SCREEN: Melissa M.  
16 Prescott, AZ

17 MELISSA M.: I suffered from acute psoriasis  
18 for about ten years of my life, and it's affected every  
19 day of my life, from people coming up to me and just  
20 asking what's wrong, people that don't even know me, just  
21 wanting to know why my skin looks the way it does.

22 But then I discovered Nopalea and I'm so  
23 excited about what it's been doing to me.

24 ON SCREEN: Individual results will vary.

25 MELISSA M.: I've only been taking it for about

1 two to three months continuously and it's changed my  
2 whole body. It changed my skin. My psoriasis is getting  
3 so much better.

4 ON SCREEN: This product is not intended to  
5 treat, diagnose, cure or prevent any disease.

6 MELISSA M.: My scalp is almost all cleared up.  
7 And I'm so excited to see it gone. I can't wait until my  
8 skin's clear and I don't have lesions all over my body, I  
9 don't have this disease-looking thing all over my body.  
10 I'm so excited to be free of psoriasis finally after ten  
11 years.

12 I haven't -- there was no hope for me any more  
13 because I tried everything and it didn't work. And then  
14 Nopalea came around and I was like, all right, you know,  
15 I'll try it, I'll try anything. And it is, it's working,  
16 it's working great. And it makes -- it gives me more  
17 energy during the days, it makes me sleep better at  
18 nights, and it's the only thing I can find that doesn't  
19 have side effects.

20 I would highly recommend Nopalea to anyone who  
21 has inflammation. It's worked for me, it's worked for  
22 others, and it can work for you, too.

23 MALE ANNOUNCER: Many scientists and medical  
24 experts today are discovering the need to help the body  
25 avoid and reduce chronic inflammation --

5           years ago about the surprising links between  
6           inflammation and diseases. Plus, what you can do to  
7           help fight it!

8           MALE ANNOUNCER: -- that can lead to painful  
9           symptoms and even disease. Dozens of recent scientific  
10          studies indicate that the fruit of the Nopal cactus found  
11          in the Sonoran Desert can help the body reduce  
12          inflammation and gain relief from the painful symptoms  
13          caused by it.

14          ON SCREEN: Brazos Minshew  
15          Chief Science Officer, TriVita

16          BRAZOS MINSHEW: When we have sick people, we  
17          always ask the same question. What makes sick people  
18          sick? And we look at inflammation as being the thing  
19          that ties together so many of these disorders.

20          ON SCREEN: These statements have not been  
21          verified by the FDA.

22          BRAZOS MINSHEW: But a very insightful study  
23          asked a different question. What keeps healthy people  
24          well and how can we be like them?

25          What we discovered is the healthier a person

1 was, the lower their level of inflammation. And that  
2 when we consume the Nopal cactus superfruit, we can drive  
3 down that inflammation and achieve the biomarkers of  
4 wellness.

17 BRAZOS MINSHEW: Inflammation is the number one  
18 problem we face in North America. Interestingly,  
19 everything from allergies and Alzheimer's disease to  
20 heart disease and diabetes are related to inflammation.  
21 We need nutrients every day to help wash away all the  
22 toxins that create inflammation. Over 200 articles  
23 published and archived at the National Institutes of  
24 Health demonstrate one thing, the Nopal cactus superfruit  
25 will reduce inflammation.

1 ON SCREEN: Joe M.

3 JOE M.: Five weeks ago, my wife, Pam,  
4 introduced me to Nopalea. And it's amazing.

5 ON SCREEN: Individual results will vary.

6 JOE M.: The inflammation is gone, the pain has  
7 ceased, and I have flexibility in my ankle. Pretty --  
8 pretty neat. I would recommend Nopalea to anyone that  
9 has problems with inflammation or pain. I can tell you,  
10 I'm just a true believer.

11 ON SCREEN: Mark G.

13 MARK G.: I watched my wife's wellness  
14 experience with Nopalea and I was amazed. So, I said,  
15 you know, one of the most important things as a cyclist  
16 is your recovery. And so, I took this product to see if  
17 it can help me recover faster, and it did. I recovered  
18 faster. I was able to come back from my workouts  
19 quicker, stronger, with more intensity. And, now, I've  
20 been able to take this product and share it with my  
21 cycling team.

22 ON SCREEN: Patti W.

24 PATTI W.: Well, I've had continuous daily pain  
25 in my left arm. And when I would drive my vehicle, I

1 could barely hold on to the steering wheel it was getting  
2 that bad. I couldn't sleep at night on my left side.

3 ON SCREEN: Individual results will vary.

4 PATTI W.: And after a week -- a week, a week  
5 and a half on Nopalea consistently, I can now lay on my  
6 left side when I sleep, I can use my steering wheel with  
7 all the muscle that I need to use it for. And so, for  
8 me, personally, I've been healed of pain. The pain's  
9 gone.

10 MALE ANNOUNCER: Nopalea is delicious tasting

7 UNIDENTIFIED MALE: When you have a product  
8 like Nopalea that delivers such amazing results in a very  
9 quick period of time, the demand for that product is  
10 going to create an enormous business opportunity. And  
11 that's what we have with Nopalea. When you have people  
12 experience relief from pain, when they have arthritic  
13 pain or a joint pain of any kind that goes away after  
14 taking this product, the business opportunity becomes  
15 almost self evident.

16 ON SCREEN: TriVita Member

17 UNIDENTIFIED MALE: With the Nopalea product,  
18 they pay us on a weekly basis, and it's one of the  
19 highest payouts in the industry. We've seen a big boost  
20 in our income and our business since the release of this  
21 product.

22 ON SCREEN: TriVita Member

23 UNIDENTIFIED FEMALE: I chose TriVita initially  
24 because I saw it had been in business for ten years and  
25 had some great nutritional products. Then I had the

1 pleasure of meeting the Ellison Family and all of the  
2 staff at TriVita and saw the tremendous integrity  
3 involved here, and I am thrilled to be a TriVita  
4 affiliate.

5 ON SCREEN: TriVita Member

6 UNIDENTIFIED FEMALE: I think TriVita is a  
7 wonderful company. They've got a very, very good plan.  
8 They've got a wonderful support system at the head  
9 office. I have to say they're very patient people,  
10 they're very friendly people. I love their compensation  
11 plan, I love their products.

12 ON SCREEN: TriVita Member

13 UNIDENTIFIED FEMALE: I feel very confident  
14 aligning myself with a company like TriVita. I met  
15 Michael Ellison a couple of months ago and I was very  
16 impressed with his feelings about what he wants to do for  
17 others, his passion for wellness, his desire to bring  
18 wellness into everyone's life, and I felt like this was  
19 something I could do, but better than that, it's  
20 something anyone can do.

21 ON SCREEN: TriVita Member

22 UNIDENTIFIED MALE: What I like best about  
23 TriVita is that I can do it from anywhere. You just  
24 simply need an Internet connection and a cell phone. So,  
25 whether I'm at home or if I'm traveling, my business

1 continues to grow. All I do is log on to my online  
2 business center, I see all the members joining on a daily  
3 basis and the customers in my business. These are real  
4 customers ordering real products from TriVita. And they  
5 continue to order because of the quality of the products.

6 I have never found another business that  
7 offered all of this. I've seen other businesses, I've  
8 tried other businesses. Nothing compares to TriVita.

9 ON SCREEN: TriVita Member

10 UNIDENTIFIED MALE: What I love about TriVita  
11 is that you don't have all of the traditional hassles and  
12 headaches that you would have with a more traditional  
13 business. With TriVita, there's no stocking product,  
14 there's no shipping product. In fact, the company does a  
15 lot of that stuff for us. They actually direct mail to  
16 our customers on the back end. They take care of a lot  
17 of the day-to-day details that you would expect to find  
18 if you're going into business.

19 Also, it doesn't take special skill sets and  
20 education to build this business. Anybody can do it.  
21 You just simply plug into TriVita's system and the system  
22 will work.

23 ON SCREEN: TriVita Member

24 UNIDENTIFIED FEMALE: One thing about Nopalea  
25 is when people try it, it works for them, they reorder,

1 and then that drives my business.

2 ON SCREEN: TriVita Member

3 UNIDENTIFIED MALE: TriVita offers world class  
4 support. Any time I have a question or need anything, I  
5 simply pick up the phone, they're there, they help me,  
6 they answer the question. There's no hidden charges.  
7 There's no monthly fee to be involved no matter how many

6 ON SCREEN: Cheryl Tiegs

7 Supermodel/Entrepreneur

8 CHERYL TIEGS: A few months ago, I had a hard  
9 time walking this hill. But, today, I'm doing it pain-  
10 free. Do I have a secret? You bet. And that's why I'm  
11 here today to share that secret with you.

12 MALE ANNOUNCER: Could a natural wellness drink  
13 really help people with painful symptoms like --

14 ON SCREEN neck pain

15 back pain

16 swollen joints

17 muscle aches

18 sinus infections

19 skin disorders

20 respiratory problems

21 and more...

22 MALE ANNOUNCER: --chronic neck and back pain,  
23 swollen joints and muscle aches, or how about even sinus  
24 infections, skin disorders, respiratory problems and  
25 more?

1           On today's show, the new and natural anti-  
2           inflammatory wellness drink that's changing people's  
3           lives. Then, travel to Los Angeles, California, for an  
4           intimate interview with legendary supermodel and  
5           entrepreneur, Cheryl Tiegs, as she reveals her own  
6           painful battle with chronic inflammation.

7           CHERYL TIEGS: The truth is my hip got so bad,  
8           I stopped hiking. I would wake up in the morning and I  
9           wanted to do that exercise, but I thought, my hip is  
10          going to hurt at the end of the night and I wouldn't be  
11          able to sleep, so I stopped hiking.

12          MALE ANNOUNCER: And how the natural, anti-  
13          inflammation drink made from Nopal cactus in the Sonoran  
14          Desert helped her get back to the life she loves.

15          CHERYL TIEGS: But, now, I can do everything I  
16          love.

17          ON SCREEN: Individual results will vary.

18          CHERYL TIEGS: I can do yoga, I can hike, I can  
19          walk, I can do the stadium steps totally without pain.

20          MALE ANNOUNCER: Since her first cover at the  
21          age of 17, Cheryl Tiegs' fresh-faced look and iconic  
22          smile have made her the all-American beauty. She became  
23          the world's very first supermodel, then went on to create  
24          a multi-million dollar beauty and fashion empire.

25          Today, this enduring beauty is in high demand

1 as a spokesperson for underprivileged children and the  
2 environment.

3 ON SCREEN: Cheryl Tiegs  
4 Supermodel/Entrepreneur

5 CHERYL TIEGS: Hi, I'm so glad you could join  
6 me because I have an exciting story for you. A few short  
7 months ago, I suffered with inflammation, just like so  
8 many of you. The worst was in my hip. Things like  
9 stairs and getting out of the car were hard for me.

10 Hiking is a passion for me. I've hiked all  
11 over the world. I've spent time in Africa and hiked the  
12 Cooper Canyon, been to the arctic, even the Inca trail.  
13 But my hip got so bad, I couldn't do a basic hike any  
14 more. I tried a lot of things, but nothing seemed to  
15 work.

16 ON SCREEN: nopalea

17 CHERYL TIEGS: Then I heard about Nopalea. I'd  
18 love to tell you that I tried it right then and there,  
19 but I'm skeptical. So, it sat on my kitchen counter  
20 until I thought, I have to try it. In about a month, the  
21 pain had diminished dramatically. Eventually, I was able  
22 to plan my next hiking trip. My only regret is that I  
23 waited so long to try it.

24 If you've suffered with inflammation or chronic  
25 pain for years, there is something that can help. That's

1 why I'm here, to share Nopalea and more remarkable  
2 success stories with you.

3 ON SCREEN: Brazos Minshew  
4 Chief Science Officer, TriVita

5 BRAZOS MINSHEW: The Nopal cactus is grown in  
6 the Sonoran Desert, the most extreme desert environment  
7 on the planet. The fruit has to develop an extraordinary  
8 reserve of bioflavonoids in order to survive.

9 ON SCREEN: These statements have not been  
10 verified by the FDA.

11 BRAZOS MINSHEW: When people and animals eat  
12 the fruit, they get these bioflavonoids. Bioflavonoids  
13 have free radical scavenging and anti-inflammatory  
14 properties.

15 In numerous scientific studies, bioflavonoids  
16 demonstrate their benefits in protecting against free  
17 radical-induced inflammation. We need nutrient  
18 protection every day to help our body wash away toxins.

19 ON SCREEN: Bioflavoids  
20 Unhealthy Cells

21 BRAZOS MINSHEW: Bioflavonoids support our  
22 body. These nutrients help our cells maintain vibrant  
23 health, unless the cell is too toxic to be saved.

24 ON SCREEN: Healthy Cells  
25 Macrophage

1           BRAZOS MINSHEW: Then, bioflavonoids support  
2           macrophages to scavenge that toxic cell and can help take  
3           it away. This leaves our cells healthy.

4           MALE ANNOUNCER: Finally, a product that can  
5           help your body reduce painful symptoms caused by  
6           inflammation, and it comes in the form of a great-tasting  
7           wellness drink, Nopalea --

8           ON SCREEN: Nopalea

9           MALE ANNOUNCER: -- made directly from the  
10          natural rich fruit of the Sonoran Desert's Nopal cactus.  
11          This amazing cactus survives the extreme hot and dry  
12          conditions of the Sonoran Desert, and its vital nutrients  
13          can help you, too.

14          CHERYL TIEGS: Inflammation has been a concern  
15          of mine for years. So, I did a huge amount of research,  
16          which is how I found Michael Ellison. Michael is the  
17          founder and CEO of TriVita --

18          ON SCREEN: TriVita  
19          experience wellness

20          CHERYL TIEGS: -- one of the country's best  
21          known health and wellness companies. And it was his love  
22          of the Sonoran Desert and its people that led to the  
23          creation of Nopalea.

24          ON SCREEN: Michael R. Ellison  
25          Founder, TriVita

1           MICHAEL ELLISON: Susan and I have lived here  
2           in the desert for nearly 30 years. We've enjoyed the  
3           desert lifestyle and the amenities it offers, but we have  
4           never thought of it as an oasis of wellness. Then I made  
5           a trip into the Sonoran Desert in Mexico where I made an  
6           amazing discovery.

7           Sitting around a campfire one evening with  
8           seven natives, they begin to share with me about the  
9           people who have lived in the desert for hundreds of  
10          years. They had no modern conveniences like air  
11          conditioning, refrigeration or running water. And they  
12          lived without modern medicine and drugs. Yet, they not  
13          only survived, they thrived without obesity and diabetes  
14          and other inflammatory diseases that so many people  
15          suffer from today. They told me the secret to their  
16          wellness was the healing plants of the Sonoran Desert.

17          ON SCREEN: Dave Morris  
18          Enthnobotanist

19          DAVE MORRIS: For centuries, the Native  
20          American people have been using the plants of the Sonoran  
21          Desert for food, medicine, spiritual needs. Prickly pear  
22          cactus or the Nopal is a good example of that. The  
23          flowers are edible, the fruit is a great source of  
24          protein and vitamin C, helps to reduce inflammation in  
25          the body, and it tastes good.

1           The aridity of this area, a harsh desert  
2           environment, is actually what made the plants adapt and  
3           gives them a lot of their wonderful healing properties  
4           here in the Sonoran Desert.

5           MICHAEL R. ELLISON: When we discovered the  
6           healing properties and the science behind the Nopal  
7           cactus, I knew we had to make it TriVita's top priority  
8           and bring this product to market. We had to get this  
9           superfruit, used by the desert natives for hundreds of  
10          years, to the many people who are suffering today from  
11          symptoms caused by inflammation.

12          SUSAN ELLISON: I couldn't walk without  
13          excruciating pain. Being physically fit has always been  
14          very important to me, but I had to give up my treadmill  
15          workouts. I even had to switch to comfort shoes.

16          ON SCREEN: Susan Ellison  
17          Co-Founder, TriVita

18          SUSAN ELLISON: I started on Nopalea during the  
19          product's trial period without much hope, but after just  
20          six weeks on Nopalea, I was almost pain-free, and after  
21          eight weeks, the redness and swelling was completely  
22          gone. Today, I am back in the gym on my treadmill pain-  
23          free and power shopping, wearing stylish shoes and loving  
24          it.

25          I know that pain can rob you of quality of

1 life. If you have inflammatory pain issues, I would  
2 encourage you to give Nopalea a chance.

3 CHERYL TIEGS: It's incredible that something  
4 as yummy and natural as Nopalea got me on my feet again.  
5 Now, my energy is back, I sleep more soundly, and so,  
6 really I just feel better. You only have one life, make  
7 it count. With all the goodness and all the desert  
8 nutrients that go into Nopalea, why don't you try it for  
9 yourself.

7           ON SCREEN: Cheryl Tiegs  
8           Supermodel/Entrepreneur  
9           CHERYL TIEGS: Nopalea can help people improve  
10 their quality of life by working with the body to reduce  
11 painful chronic inflammation.  
12           ON SCREEN: nopalea  
13           MALE ANNOUNCER: Here's another amazing story  
14 of how Nopalea helped a woman overcome daily intense pain  
15 from a disabling car accident.  
16           ON SCREEN: Melody C.  
17           Denver, NC  
18           MELODY C.: In 2002, I had three vertebrae to  
19 collapse in my neck and I was down for a year and a half.  
20 And the things I really miss about that is being able to  
21 go to the barn and saddle up and really groom the horses  
22 and do things with Caleb.  
23           ON SCREEN: TriVita Member  
24           MELODY C.: Then I found Nopalea. A good  
25 friend of mine I've known for 17 years introduced me to

1 the product. I was very skeptical at first because I  
2 tried a lot of products. Within three weeks, I could  
3 notice a difference. I was moving better.

4 ON SCREEN: Individual results will vary.

5 MELODY C.: Within five weeks, I was pain-free  
6 on the product.

7 Thanks to Nopalea, I have a better quality of  
8 life. I don't have inflammation in my body. I'm  
9 mountain biking, I'm exercising.

10 ON SCREEN: This product is not intended to  
11 treat, diagnose, cure or prevent any disease.

12 MELODY C.: I just have a better quality of  
13 life all around. I just feel so much better on Nopalea,  
14 let's go ride horses.

15 ON SCREEN: Robin S. RN

16 Denver, NC

17 ROBIN S.: As a registered nurse, Melody came  
18 to me and asked me my opinion about the Nopalea. I did  
19 research, went to an event on it, was very impressed.  
20 Since that time, I have been taking the Nopalea. Its  
21 anti-inflammatory agents are fabulous.

22 ON SCREEN: nopalea

23 ON SCREEN: John W.

24 Scottsdale, AZ

25 JOHN W.: Well, I started having chronic pain

1 and inflammation as a teenager. I have extreme spinal  
2 stiffness, spinal pain, pain that, you know, goes into  
3 different areas of my joints and where my ribs and my  
4 tissue connects to my spine.

5 ON SCREEN: TriVita Member

6 JOHN W.: I actually heard about Nopalea  
7 through a TriVita publication and I knew that with my  
8 particular condition --

9 ON SCREEN: This product is not intended to  
10 treat, diagnose, cure or prevent any disease.

11 JOHN W.: -- suffering for 20 years, I knew  
12 that, you know, I was going to need to try this for a  
13 little while. I cracked open the fourth bottle.  
14 Literally, three days into that fourth bottle, and I  
15 actually woke up out of bed a different person.

16 That was then and this is now. Since taking  
17 the Nopalea wellness challenge, I have a new lease on  
18 life. I feel terrific. There's a new me. I feel like I  
19 was maybe 20 years ago.

20 ON SCREEN: Individual results will vary.

21 JOHN W.: I'm actually out, I'm active, I'm  
22 riding a bike, I'm playing with my family, I'm jogging.  
23 I'm even able to go to the pool. I'm able to hit the  
24 weight room. And just feel good.

25 Nopalea has helped me to manage my inflammation

1 in a way I never thought possible. Do what I did. Take  
2 the Nopalea wellness challenge. Six ounces a day, that  
3 is exactly what I did. Three in the morning, three in  
4 the evening. And it all started to come together.

5 ON SCREEN: nopalea

6 ON SCREEN: Sandy D.

7 Carmel Valley, CA

8 SANDY D.: I actually got bit by a deer tick on  
9 this hike. A few weeks later, I started realizing that  
10 I was feeling very flu-ish and didn't have the energy. I  
11 mean, it was even getting to a point where I was having a  
12 very difficult time to even get out of bed in the  
13 morning.

14 Having Nopalea come into my life was -- and the  
15 timing was a miracle.

16 ON SCREEN: Individual results will vary.

17 SANDY D.: Oh, it's -- it's given me my life  
18 back. I can get through the day now, and while I'm  
19 healing, Nopalea's helping me to have a better quality of  
20 life.

21 MALE ANNOUNCER: Nopalea is made directly from  
22 the natural rich superfruit of the Sonoran Desert's Nopal  
23 cactus. This cactus survives one of the world's harshest  
24 desert regions, and its key nutrients can help you, too.

25 ON SCREEN: Melissa M.

1 Prescott, AZ

2 MELISSA M.: Nopalea came through for me. It  
3 makes me feel better through the days and sleep better at  
4 nights. And it's clearly up my skin.

5 ON SCREEN: Individual results will vary.

6 MELISSA M.: It's the only thing I could say  
7 that's ever really helped that's -- and this much, too.  
8 And it's changing my life and I have so much of a better  
9 outlook for the future.

10 ON SCREEN: This product is not intended to  
11 treat, diagnose, cure or prevent any disease.

12 MELISSA M.: It's not like anything else out  
13 there that I've tried. It's actually working and it's  
14 healthy for me. It's good for me.

15 I would highly recommend Nopalea to anyone who  
16 has inflammation. It's worked for me, it's worked for  
17 others, and it can work for you, too.

18 ON SCREEN: nopalea

19 MALE ANNOUNCER: Many scientists and medical  
20 experts today are discovering the need to help the body  
21 avoid and reduce chronic inflammation. Dozens of recent  
22 scientific studies indicate that the fruit of the Nopal  
23 cactus found in the Sonoran Desert can help the body  
24 reduce inflammation and gain relief from the painful  
25 conditions caused by it.

1           ON SCREEN: Brazos Minshew  
2           Chief Science Officer, TriVita

3           BRAZOS MINSHEW: When we have sick people, we  
4 always ask the same question. What makes sick people  
5 sick? And we look at inflammation as being the thing  
6 that ties together so many of these disorders.

7           ON SCREEN: These statements have not been  
8 verified by the FDA.

9           BRAZOS MINSHEW: But a very insightful study  
10 asked a different question. What keeps healthy people  
11 well and how can we be like them?

12           What we discovered is the healthier a person  
13 was, the lower their level of inflammation. And that  
14 when we consume the Nopal cactus superfruit, we can drive  
15 down that inflammation and achieve the biomarkers of  
16 wellness.

17           CHERYL TIEGS: I've worked hard to stay healthy  
18 my whole life. I watch what I eat. I stay active and  
19 exercise. I do yoga and meditate. But that's no  
20 guarantee inflammation won't strike you. That's why when  
21 I discovered Nopalea, it made such a difference for me.  
22 I feel that I want to share it with as many as I can.  
23 Well, my mom, she's 87, she loves it. I recommend it to  
24 friends.

25           Do yourself a favor, do someone you love a

1 favor and give Nopalea a try.

22 ON SCREEN: Cheryl Tiegs

23 Supermodel/Entrepreneur

24 CHERYL TIEGS: Have you called in to take  
25 Nopalea's wellness challenge? Well, if not, consider

1 this, many doctors and scientists agree there's a link  
2 between inflammation and serious diseases. But the  
3 nutrients in Nopalea can help. Here's how.

4

5 ON SCREEN: Brazos Minshew

6 Chief Science Officer, TriVita

7 BRAZOS MINSHEW: Inflammation is the number one  
8 problem we face in North America. Interestingly,  
9 everything from allergies and Alzheimer's disease to  
10 heart disease and diabetes are related to inflammation.

11 ON SCREEN: These statements have not been  
12 verified by the FDA.

13 BRAZOS MINSHEW: We need nutrients every day to  
14 help wash away all the toxins that create inflammation.  
15 Over 200 articles published and archived at the National  
16 Institutes of Health demonstrate one thing, the Nopal  
17 cactus superfruit will reduce inflammation.

18 ON SCREEN: Tony K.

19 San Anselmo, CA

20 TONY K.: I was a professional fashion  
21 photographer for over 25 years and always carrying a lot  
22 of cameras. I ended up having a lot of inflammation and  
23 chronic pain in my back.

24 ON SCREEN: TriVita Member

25 TONY K.: And the last five or ten years, every

1 morning I woke up I could feel this pain in my back. I  
2 kind of stopped exercising, I put on a lot of weight.

3 ON SCREEN: Individual results will vary.

4 TONY K.: I started drinking Nopalea. I was  
5 drinking, I would say, six to eight ounces a day on a  
6 regular basis for maybe a month and a half, two months,  
7 when all of a sudden I realized that I was waking up  
8 without pain. I was able to exercise again. I started  
9 losing weight. I got my life back.

10 ON SCREEN: nopalea

11 MALE ANNOUNCER: The real stories you are  
12 hearing all have one thing in common --

13 ON SCREEN: relief from chronic inflammation  
14 in the body

15 MALE ANNOUNCER: -- relief from chronic  
16 inflammation in the body. Today, medical experts and  
17 scientists are searching for solutions to help combat  
18 chronic inflammation of the body like never before.

19 ON SCREEN: Scott Conard, ND

20 This opinion is intended for educational  
21 purposes only. It is not intended to diagnose or treat  
22 disease.

23 SCOTT CONARD: All inflammation is not bad. In  
24 fact, inflammation is part of healing. But when you go  
25 from the inflammation -- acute inflammation and it

1 doesn't go back down to non-inflamed, but goes to  
2 chronic, low-grade, ongoing inflammation that gets worse  
3 and worse, eventually, you will destroy tissues, you get  
4 diabetes, you get heart disease, you get strokes, you get  
5 dementia, you get gut disease, you can have confusion,  
6 you can have your whole life literally come apart because  
7 you've got ongoing chronic inflammation that we didn't  
8 address and treat.

9           Now, remember, it's easier to treat it early  
10 than wait for it to get very severe.

11           MALE ANNOUNCER: Now, there is a natural  
12 alternative that can help the body reduce chronic  
13 inflammation without the worries of negative side  
14 effects. Nopalea.

15           ON SCREEN: nopalea

16           MALE ANNOUNCER: Made directly from the natural  
17 rich fruit of the Sonoran Desert's Nopal cactus. This  
18 amazing cactus survives the extreme hot and dry  
19 conditions of the Sonoran Desert and its vital nutrients  
20 can help you, too.

21           ON SCREEN: Joe M.  
22 Monroe, NC

23           JOE M.: Five weeks ago, my wife, Pam,  
24 introduced me to Nopalea. And it's amazing.

25           ON SCREEN: Individual results will vary.

1           JOE M.: The inflammation is gone, the pain has  
2           ceased, and I have flexibility in my ankle. Pretty --  
3           pretty neat.

4           ON SCREEN: TriVita Member

5           JOE M.: I would recommend Nopalea to anyone  
6           that has problems with inflammation or pain. I can tell  
7           you, I'm just a true believer.

8           ON SCREEN: Mark G.

9           Charlotte, NC

10          MARK G.: I watched my wife's wellness  
11          experience with Nopalea and I was amazed. So, I said,  
12          you know, one of the most important things as a cyclist  
13          is your recovery. And so, I took this product to see if  
14          it can help me recover faster, and it did.

15          ON SCREEN: Individual results will vary.

16          MARK G.: I recovered faster. I was able to  
17          come back from my workouts quicker, stronger, with more  
18          intensity.

19          ON SCREEN: TriVita Member

20          MARK G.: And, now, I've been able to take this  
21          product and share it with my cycling team.

22          CHERYL TIEGS: We all have things in our lives  
23          we're passionate about. We want to be healthy and have  
24          energy. For me, having adventures and conquering new  
25          trails and being with family and friends was so

1 important. Nopalea has helped me sustain the active life  
2 I've always had. You don't know how great you'll feel  
3 until you take the Nopalea wellness challenge. It's  
4 risk-free.

5 See for yourself the difference it can make in  
6 your health, your energy and the quality of your life.  
7 But you won't know how much better you can feel until you  
8 take the first step. Here's your chance.

# Discover Nopalea, a natural solution to inflammation

Nopalea (Nō-pah lāy'uh) is a tasty wellness drink sourced from the fruit of the Nopal cactus (*Opuntia Ficus Indica*). Nopal cactus fruit contains a very rare and powerful class of antioxidants called Betalains (bāy ta linz). Betalains have been scientifically proven to help the body detoxify itself and reduce inflammation.

These healing properties of the Nopal cactus have been relied on for centuries by native peoples, and they're now available in Nopalea. Each 32-ounce bottle of Nopalea brims with the health benefits of the Nopal fruit.

Daily use of Nopalea helps your body:

- **Reduce inflammation**
- **Detoxify**
- **Achieve optimal cellular health**

## Nopalea Users Are Saying...

"...I noticed that my range of motion was improving."

"I've had a very stiff neck, due to inflammation, that caused me a lot of pain and affected my range of motion. I began drinking Nopalea and within five days, I noticed that my range of motion was improving."

*Paige C., Affiliate Member - Belleair Bluffs, FL*

"...the pain in my knees and ankles had disappeared."

"I suffered from pain in my knees and ankles before I began taking Nopalea. After starting the Nopalea Loading Phase [3 to 6 oz per day] my pain was cut in half. By the time I was halfway through the second bottle, the pain in my knees and ankles had disappeared."

*Kimberly M., Member - Mechanicsville, PA*

## Help Protect Against the Damaging Effects of Chronic Inflammation

Nopalea is the breakthrough wellness drink that people are talking about!

Full of Betalains, a class of rare and potent antioxidants,

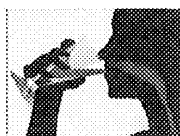

Nopalea works in two ways.

It helps your body to:

- Neutralize toxins
- Reduce inflammation

Nopalea helps give your body the great relief it needs today, while helping to protect it against tomorrow's health conditions.

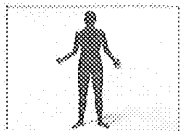

## How Nopalea aids the body in healing

1. Nopalea, full of Betalains, is swallowed.

5. The body then can turn an unhealthy cell into a healthy one.

2. The Betalains in Nopalea permeate the body.

6. A macrophage (a special immune system cell) seeks any leftover dead cells.

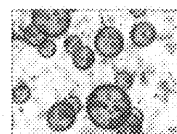

3. A close-up of Betalains, surrounded by cells.

7. The macrophage engulfs the dead cells.

4. The Betalains approach an unhealthy cell and drain out the toxic waste.

8. Betalains continue to surround your cells and protect against daily assaults.

# Can this fruit drink save your life?

How a new wellness drink helps fight the 'secret killer'...

### The secret killer -- revealed!

Scientists believe that inflammation — the lifesaver that helps you fight off germs, bacteria and viruses — is the secret killer. Left alone, it can ravage your arteries, chew up nerve cells in your brain, and lead to all kinds of age-related ailments.

Now, researchers at the University of Arizona have confirmed that the healing properties of the Nopal cactus — found only in the Sonoran desert in the southwest — can help fight off harmful inflammation and restore cellular health.

The key is a rare and potent class of antioxidants called "betalains" found inside the Nopal fruit. For centuries, betalains are believed to be perhaps the best natural anti-inflammatory agents on the planet.

### The power of Nopalea

For the first time, you can harness the proven health benefits of this powerful antioxidant in a delicious, natural fruit drink. Nopalea stands with you in your daily battle for good health.

### Helps restore damaged cells

Nopalea draws off excess fluid in your cells, strengthens the cellular wall and protects it from "popping," or dying prematurely. The unhealthy

cell returns to a normal, healthy state. And you feel great again!

### Delighted customers

*"I had surgery for collapsed vertebrae which caused severe inflammation. I tried Nopalea and I'm no longer in pain."*

*"I love the way it tastes. I will never stop drinking Nopalea."\**

-- Melody C., TriVita Member

**“For years, I suffered from unbearable stiffness and swelling in my hands?”**

# “How I BEAT The Pain That Almost Ended My Career!”

By Jaudon Sunde  
Medical Cosmetic Technician

For nine long years, I lived in sheer agony. I suffered from inflammation and horrible stiffness in my hands. Unless you've experienced it for yourself, you can't imagine how bad the pain really is. It nearly crippled me and almost ended my career.

As a Medical Micropigmentation Specialist in Cleveland, Ohio, I need my hands for applying medical tattooing and permanent makeup for cancer patients, burn victims, and for people who need facial reconstruction.

I was proud that in 2010, FOX 8 TV news viewers voted me the “Best Permanent Cosmetic Technician” in the area and I have consistently ranked in the top 2% nationally.

But suddenly, my career was in danger. I was told that the intense precision of my work combined with the brutal cold winters in Ohio contributed to major stiffness and inflammation.

So naturally, I tried just about every pain remedy and topical cream on the market. Nothing worked. The pain was getting worse and worse.

So for all these years, I got by on a steady regimen of over-the-counter pills. The pain in my hands got so bad that I started taking pain relievers 2-3 times a day. And still my agony persisted.

I was faced with a dreadful choice: Either have the painful surgery on my hands and be laid up for months...or cut my workload in half. I was between a rock and a hard place.

I couldn't afford to do either. I had to find a better way to get real relief.

Then one day at dinner a friend of mine told me that inflammation is worse than I thought. “It's called the ‘secret killer,’ and for good reason,” he said. “Left alone, it can ravage your arteries, chew up nerve cells in your brain, and lead to all kinds of age-related ailments.

“The good news is that researchers at the

University of Arizona have now confirmed that the Nopal cactus — found in the Sonoran Desert in the southwest U.S. — has tremendous power. It can help fight off harmful inflammation without risky drugs. And it can help reduce the pain caused by inflammation.

“It turns out that the fruit of this plant is loaded with a special concentration of something called a ‘bioflavonoid.’ It's a super-powerful antioxidant that scientists believe to be perhaps the best natural anti-inflammatory agent on the planet. And it's proven to reduce inflammation and detoxify your body naturally.”

He then spoke the words that would change my life, “I think all you need to do is try a fruit drink.” I was shocked! How is an ordinary fruit drink going to end my misery? “Well, it's not an ordinary fruit drink. It's called Nopalea, a breakthrough wellness drink that contains these incredible bioflavonoids I told you about. Drink it and you'll be amazed how great you're going to feel!”

I was skeptical, but I was also desperate. He brought me a bottle and I took a sip. I was shocked that it actually tasted fruity and delicious. I really enjoyed drinking it.

In just 5-6 days, an amazing thing happened. I started to feel much better. My stiffness loosened up and I moved around better than I had in years with no pain.

I was overjoyed! The inflammation in my hands showed dramatic improvement. I kept taking 3 ounces of Nopalea twice a day and after about 30 days, I could perform my duties 95% pain free!

Even the doctors I work with were amazed at my amazing improvement. I no longer need surgery. I am busier than ever before and I love it!

I also found out that the bioflavonoid in Nopalea aid my body in healing by surrounding unhealthy cells and draining them of toxic waste.

Wellness Stories

**"...after taking Nopalea, I feel so much better."**  
 "I am a certified personal trainer and fitness consultant. But then one day, I injured my back while exercising and I experienced a constant nagging pain and muscle tightness that I could not seem to get rid of. I knew I needed some help. And, now, after taking Nopalea, I feel so much better."

- Brian B., Affiliate Member - Odenton, MD

**"I suffered excruciating pain every day ... now my pain is almost gone!"**

"I was diagnosed with a condition where there is inflammation in the cartilage that joins the upper ribs to the sternum. This condition causes sharp pains on my front chest wall which also radiates to my back and abdomen. I was suffering with excruciating pain every day. My doctor recommended ibuprofen, but it did absolutely nothing for the pain. I started thinking that I was going to have to live with this very painful condition for the rest of my life. Then I learned about Nopalea and decided to try it. I took the loading phase and now my pain is almost gone! Nopalea is an awesome product."

- Carrie P., Member - Mount Horeb, WI

**"...I realized I was breathing deeply. It felt great!"**

"I used to run marathons and walking is one of the things I love to do. Recently I'd developed breathing problems, especially when breathing deeply, which made walking difficult. My doctor found evidence of scarring on my lungs so I began taking Nopalea. One day while walking, I took a deep breath - a really deep breath - and realized I was breathing deeply. It felt great! Nopalea has helped me so much. It is a life-changing product. The taste is great, and it really makes me feel good."

- Barbara B., Affiliate Member - Los Angeles, CA

**"...the pain has continued to steadily decrease"**

"I have been taking Nopalea for about month and a half. After the first week, I noticed that I was having much less pain in my knees after my morning run. At first I didn't know if it was the Nopalea, but I continued to drink about 2 ounces a day, and the pain has continued to steadily decrease. I've also noticed that I am more motivated to exercise regularly. The taste is so good that even my four-year-old daughter asks for her Nopalea by name every day - drinking it is part of our morning routine."

**"After taking Nopalea, my constant knee pain was gone."**

"Before I started taking Nopalea I had pain and swelling in my knee due to all the running I was doing. My doctor told me to stop running and gave me an anti-inflammatory medication. It didn't work. But after taking Nopalea, my constant knee pain was gone. I decided to try running again. Much to my amazement, I've now been running pain-free, without swelling, for over five months. Plus, even my weekly migraines are gone. I feel better now than I ever have!"

- Tami S., Affiliate Member - Lincoln, NE

**"Within five days ... my range of motion was improving."**

"I'm in my 40s and had a few health problems, including a very stiff neck that caused a lot of pain and affected my range of motion. So I began drinking Nopalea (it tastes delicious) and within five days of starting the Nopalea Wellness Challenge, I noticed that my range of motion was improving. I noticed that Nopalea also helped me with my seasonal allergy symptoms that created puffiness around my eyes and face. People commented on how healthy my skin looked after just a short time on Nopalea. Best of all, Nopalea helped my body reduce inflammation as shown on my C-Reactive Protein test. Prior, the score was 1.3, but since Nopalea, it is down to just barely over zero - it decreased one full point. Nopalea is helping me out and I think it's worth it to feel good and be healthy."

- Palge C., Affiliate Member - Belleair Bluffs, FL

**"Nopalea allowed me to compete in what I do best!"**

"I'm a 49-year-old Pro Rodeo Champion from South Dakota and compete nationally in Steer Wrestling and Roping. Working in the rodeo has especially impacted my shoulders, causing me pain. But then I found out about Nopalea from my mother who recommended that I try it because of my aches and pains."

Just several days after starting Nopalea, I took a nasty fall and hurt my knee pretty bad in a competition. I was due to continue the competition over the next few days, but I feared the worst. I thought I would have to quit, because the last time I fell like this, I was out for almost a month.

Much to my surprise, the next day I didn't have the swelling and pain that I've experienced so many times before. I was not only feeling pretty good, I was able to compete the next two days and finish what I was there for! I didn't think Nopalea would be able to help me so fast.

I also noticed that since taking the Nopalea, my sleep pattern is much better. I used to wake at the early hours of the morning and now, I find that I am sleeping better and longer without that interruption."

**“...pude mover mis manos mucho mejor”.**

“Sufría de rigidez, inflamación y dolor articular crónicos durante muchos años. Luego de tomar Nopalea durante poco tiempo, pude mover mis manos mucho mejor. Estoy tomando Nopalea desde hace más de un año y ha aliviado enormemente el dolor y la rigidez de las articulaciones”.

*Sherman J., Jr., Nelson Lagoon, AK*

**“Camino en el parque casi todos los días sin bastón y llevo una vida activa”.**

“Hace un año me torcí las rodillas y luego de meses de rehabilitación seguía teniendo dificultad para caminar, por lo que usé un bastón. Un amigo me recomendó Nopalea y decidí probarlo. Luego de dos semanas noté una mejoría. Ahora, tres meses después, camino en el parque casi todos los días sin bastón y llevo una vida activa. Si dejo de tomar Nopalea, los síntomas regresan. Ahora estoy comprometido con el producto y estoy feliz de compartirlo con las personas con las que hablo”.

*Mike M., Middle Village, NY*

**“...estoy tan emocionada con los resultados”.**

“Mientras jugaba con una pelota en la piscina, me lesioné gravemente la rodilla derecha. A penas podía caminar, sentarme, dormir o realizar actividades comunes. Realicé un pedido de Nopalea y noté una clara mejoría luego de 3 semanas de tomar diariamente 6 onzas de Nopalea. Estoy tan emocionada con los resultados”.

*Orysia C., Lawrenceville, GA*

El fruto del nopal de Nopalea contiene una clase muy rara y potente de antioxidantes llamados bioflavonoides. Se ha comprobado científicamente que estos bioflavonoides ayudan al organismo a detoxificarse y reducir la inflamación. ¡Vea lo que dice la comunidad de investigadores científicos acerca de estos increíbles nutrientes!

Cómo ayuda Nopalea al organismo en la curación

**1-800-249-2173**

La inflamación descontrolada y los radicales libres (moléculas inestables que son también dañinas para

las células) son generalmente el resultado de la exposición del organismo a las toxinas, el traumatismo directo, las deficiencias de nutrientes y el estrés. Una célula demasiado agotada por la inflamación se puede dañar definitivamente y puede causar su muerte prematura. Las células dañadas y muertas deberán eliminarse del organismo o se convertirán en el foco de infecciones y enfermedades.

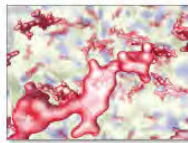

*Los bioflavonoides contenidos en Nopalea pueden ayudar a protegerlo contra la toxicidad y a reducir la inflamación que puede conducir a padecimientos graves.*

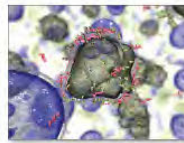

1. Nopalea, repleto de bioflavonoides, se ingiere.

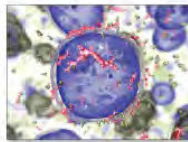

2. Los bioflavonoides contenidos en Nopalea se extienden por todo el organismo.

3. Un primer plano de los bioflavonoides, rodeados de células.

4. Los bioflavonoides se acercan a las células no saludables y drenan el líquido residual tóxico.

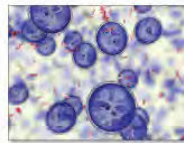

5. El organismo puede convertir una célula no saludable en una sana.

6. Un macrófago (una célula especial del sistema inmunológico) busca cualquier célula muerta que haya quedado.

7. El macrófago envuelve las células muertas.

8. Los bioflavonoides continúan rodeando sus células, protegiéndolas contra los asaltos diarios.
